# No color no problem.

by SI 6<sup>c</sup> & 5<sup>c</sup>

Guns in my area, Cops in my area  
don't let 'em get to ya, don't let 'em get to ya.  
People are crying, People are bleeding,  
People are falling, People are dying, Police are killing.  
What's wrong with black?  
Why don't they act, this is a fact.  
Why does everybody say that black is bad?  
Does this colour make you look bad.

For white supremists our lives don't matter,  
Stop be divided, if not blood will splatter.  
No colours, no problems and all lives matter.

Black community on a quest  
To find their life that's in the dark  
Police Brutality give 'em no rest  
Until they win the color war  
No Color No Problem

Every time I see myself I cry, I die

And all I do is try & try

And it's just about time

Equality is juxtaposition

Justice is near

It's clear

It's almost here

It's our quest, it's time to fight like the rest.

For white supremacists our lives don't matter  
Don't be deceived, if not blood will splatter,  
No colors, no problems and all lives matter

Black community is on a quest  
to find their life that's in the dark  
Police brutality give 'em no rest  
Until they win the color war  
No color no problem.

Living' in the shadows too scared to show my face  
Wondering what's gonna happen, what about my faith?  
What about police, have you forgotten?  
We're humans like you but fearing this planet,  
No matter that we're trying to prove our existence  
So, that is why we should become a resistance  
This is a protest to fight for ourselves but,  
I know it's useless, cause people ignore us.

Black community is on a quest  
to find the life that's in the dark  
Police Brutality give 'em no rest  
Until they win the color war  
No Color No Problem
